

# POM POM XMAS TREE

A fun craft project to get your colour creativity going! This Christmas project is a great learning experience. And making your own decorations is extra special. Children can make these on their own or with parent help (supervision required if using a Glue Gun).

## Learning Objectives:

Creative process, tactile learning, hand eye coordination, colour combination.

## You will need:

### Version 1

- White Cardboard
- Five Star Pom Poms Mini
- Five Star PVA General Purpose 125 ml
- Star shape for tree top decoration

### Version 2

- Five Star Polystyrene Cone
- Five Star Pom Poms Glitter
- Hot Glue Gun
- Toilet roll cardboard
- Xmas wrapping paper

## Lets create: Version 1

### Step 1:

Cover your work area with scrap paper or card before you start.

### Step 2:

Cut a half circle out of the white card - as a guide, our tree measures 150 mm from the flat edge to the top of the semi circle.

### Step 3:

Roll the card around to form a cone shape and apply some PVA Glue. Leave to dry. Note, due to the cone shape you may need to secure this shape with the likes of a peg until the glue dries.

### Step 4:

Attach pom poms at random using dots of PVA glue.

### Step 5:

Cut a star shape from your left over cardboard and colour or outline as desired and attach with glue.

## Lets create: Version 2

### Step 1:

Cover your work area with scrap paper or card before you start.

### Step 2:

Using the hot glue gun, attach each pom pom to the polystyrene cone to cover the entire area.

### Step 3:

Cut a star shape from your left over cardboard and colour or outline as desired and attach with glue.

### Step 3:

To make the base, cut the toilet roll to the desired height and wrap with Xmas wrapping paper then glue into place.

Be creative...  
make beautiful patterns  
with pom pom colours
