FABRIC CARE

Professional dry cleaning only (chenille modulars: recommended). Not suitable for home cleaning. Scotchgard protection is recommended to guard against stains and marks. Each fabric is individually dyed, so slight colour variation can occur between runs.

Designing for *real life*

The Martindale rub count is the industry benchmark for abrasion resistance. Results are reported in rub cycles, and the higher the number, the more resilient the fabric. For commercial use, a minimum of 30,000 cycles is typically recommended.
