co-botic 1900

Commercial robotic vacuum cleaner

The co-botic 1900 is a smart, programmable vacuum robot that autonomously cleans workplaces, optimizing efficiency with intelligent software and hands-free operation.

Dust bin

2L anti-mold dust bin with HEPA filter

Remote controlled

Use the remote to start autonomous room cleaning

Emergency stop button

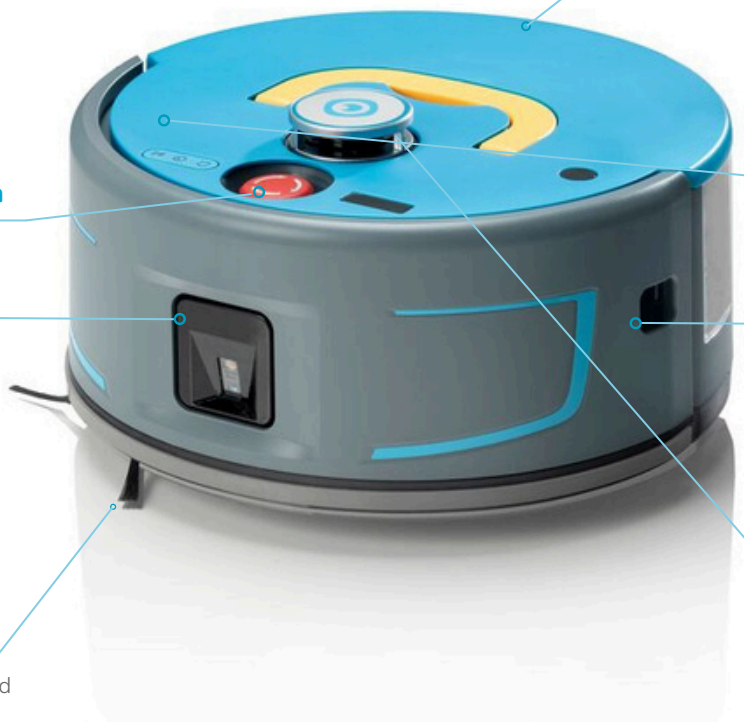
For extra safety

Cable detection sensor

Analyzes and navigates around obstacles to avoid cables and other hazards

Rotating side brush

Side brush and spring-loaded dual brushes for effective cleaning on uneven floors



Battery

Rechargeable and swappable

Built-in speaker

Anti-collision warning

Laser navigation

Laser-based navigation and sensing for precise operation

Technical Specifications

Power rate	**50 W (Eco mode)**
Voltage	**28.8 V**
Runtime	**Up to 4–5 hrs**
Charge time	**3–4 hrs**
Sound level	**62–68 dB**
Cleaning efficiency	**Up to 2 m²/min**
Dust bin volume	**2L (anti mold)**
Dimensions	**375 x 197 mm**
Weight	**±7 kg (excl. batteries)**

Code

co-botic 1900
COB19.FCT.0220B

Why co-botic 1900?

- Vacuums autonomously, freeing up time for other cleaning tasks.
- Industrial-grade suction and self-leveling brushes deliver consistent cleaning.
- Cord-free ergonomic design reduces strain and lowers emissions.
- Consumes only 50 W in Eco mode versus 750 W manual vacuums.
- Reliable industrial co-botic delivering results and saving time.
