GENERAL INFORMATION

Aquatrols Fifty90 is an economical surfactant and a proven alternative for those interested in a longer-lasting surfactant. Aquatrols Fifty90 is proven to remain effective in the soil for up to three months reducing water repellency (the cause of localized dry spots). Unlike some "longer term" surfactants, Aquatrols Fifty90 is effective regardless of turf type, environmental or climatic stress conditions.

Aquatrols Fifty90 is easily applied with conventional spray equipment. It is best to make initial application early in the season before stress begins.

DIRECTIONS FOR USE

GENERAL TURF

Full Rate Application: Apply Aquatrols Fifty90 at 480 ml/100 m² in 20 L of water. Apply a post-treatment syringe cycle to activate. For control beyond 3 months, a subsequent application of 240 ml/100 m² in 8 L of water may be required for extended performance through the fall period.

Split Application: Apply Aquatrols Fifty90 at 240 ml/100 m². Apply a post-treatment syringe cycle to activate. For control beyond 3 months, a subsequent application of 240 ml/100 m² in 8 L of water may be required for extended performance throughout the fall period.

DO NOT combine Aquatrols Fifty90 in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective, and non-injurious under local conditions.

For more detailed information call 1-800-257-7797.

STORAGE AND DISPOSAL

- Keep container tightly closed. Store in original container only. Keep in a secure and locked storage area. Do not add water to the contents of this container.
- Triple rinse container, empty rinse water into spray or stock tank. Dispose of empty containers in accordance with federal, state and local law.

PRECAUTIONARY STATEMENTS

- CAUTION: MAY CAUSE IRRITATION. DO NOT GET IN EYES.
- AVOID BREATHING VAPORS OR MISTS.
- AVOID USING PRODUCT IN A MANNER AS TO DIRECTLY, OR THROUGH DRIFT, EXPOSE WORKERS OR OTHER PERSONS.
- ALWAYS CONSULT THE MATERIAL SAFETY DATA SHEET FOR SPECIFIC INSTRUCTIONS.
- APPLICATORS AND OTHER HANDLERS MUST WEAR GOGGLES OR A FACIAL SPLASH SHIELD; CHEMICAL RESISTANT GLOVES, SUCH AS NITRILE RUBBER ≥ 14 MILS OR NEOPRENE RUBBER ≥ 14 MILS; COVERALLS OR LONG SLEEVED SHIRT AND LONG PANTS; SHOES PLUS SOCKS.
- KEEP OUT OF REACH OF CHILDREN.

FIRST AID MEASURES IN CASE OF CONTACT

- **EYE:** DO NOT RUB EYES. Immediately flush eyes with large amounts of water for 15 minutes lifting the lower and upper lids. Seek medical attention if necessary.
- **SKIN:** Remove contaminated clothing and immediately wash affected area with large amounts of water for at least 5 minutes. If irritation or redness persists, seek medical attention as needed.
- **INGESTION:** Give large amounts of water to drink. Seek medical attention if necessary. Induce vomiting only upon advice from a physician.
- **INHALATION:** Move individual to fresh air and check to assure adequate respiration. Seek medical attention if necessary.

Applicators and other handlers should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove protective clothing and equipment after handling. Wash the outside of gloves before removing. Wash thoroughly and change into clean clothing.
