xMount
securing systems

Simplify your installations with xMounts

A modular system for mounting equipment and securing cables

3 MODELS — Unlimited Uses

External

Connect to your equipment with the fastener for an instant and secure screw-in attachment.

Concealed

Hides behind equipment for a seamless finish.

Circular

Use to secure cables. A classic multi-purpose screw mount.

AVAILABLE IN MIXED PACKS (INC. 25 OF EACH)
OR INDIVIDUAL PACKS (25 OR 100 UNITS)

Patented Function and Design

- ☑ **UV STABLISED NYLON**
- ☑ **REUSABLE**
- ☑ **RECYCLABLE**

Support Equipment

The xMount carries the equipment weight, not the fastener.

A single External xMount can support hardware up to 10kgs.

Service Easily

Tidy complex zones making servicing equipment easy.

No need to remove the xMount or the screw — just undo the fastener, remove the hardware, and re-attach once serviced.

Enable Airflow

Automatically elevates hardware to keep everything cool.
