

COLD WAX SOLUTION

Cold Wax Solution is a wax product which can be used as a resist for watercolours, inks and dyes. Cold Wax is water soluble, ready to use and has no fumes. Successive colour layers can be applied using the batik method. Cold Wax is suitable to be used on paper, clay, screens and fabric.

Create a COLD WAX PANDA

Beginner Level Expert

You will need:

- Five Star Cold Wax Solution
- Five Star Liquid Dye
- Five Star 5008 Flat Brushes Sizes 6, 8
- Five Star Paint Tray
- Cartridge Paper
- Newspaper

Method:

Step 1:

Draw or trace panda onto cartridge paper.

Step 2:

Paint Cold Wax onto the white areas of the panda.

Step 3:

Once dry, paint over the entire painting with black Liquid Dye. Do not

worry about getting the black over the white as it will resist against the Cold Wax.

Step 4:

Finally sign your work like a true professional.

Black areas:
alternatively you can use Five Star Indian Ink, Five Star Water Soluble Dye or Flint Mecca Indian Ink
