

# FACE PAINT

Cosmetic grade Face & Body Paint made in New Zealand. Ideal for school and theatre productions, children's parties, sports supporters, professional performers and rainy day fun. Five Star Face & Body Paint comes in strong, bright colours and can be applied by brush, sponge, fingers or cotton bud. Colours are fully intermixable, dry quickly and can be diluted with water to assist with brushing. Allow the first colour to dry before applying additional colours. Non toxic.

FP01

## Create HALLOWEEN FACES

### You will need:

- Five Star Face Paints
- Five Star brush 5008 Flat 10, 20
- Small sponge (for applying)
- Moisturiser or barrier cream

When using a sponge, wet it then wring it out so it feels damp - this helps the flow of the paint

### Method - Vampire:

**Step 1:** Apply moisturiser or barrier cream.

**Step 2:** Apply a base coat of white over the entire face, avoiding the eyes and mouth area, using the sponge and let it dry.

**Step 3:** Using your finger, mix a little black and white face paint to make grey and apply around the eyes, nose, mouth and forehead.

**Step 4:** With the brush add the black eyebrows and then finish with red around the eyes and blood dripping.

**Step 5:** Add the white fangs using the brush.

### Method - Devil:

**Step 1:** Apply moisturiser or barrier cream.

**Step 2:** Using the sponge apply red over the entire face, avoiding the eyes and mouth and let it dry.

**Step 3:** Using a brush, 5008 Flat 10, apply black to the eyebrows and chin. Be careful not to get too close to eyes.

**Step 4:** Brush gold under the eyebrows and the "flame" lines up the face and forehead as shown.

**Step 5:** Add orange lines in between the gold lines previously painted (as shown).

### Method - Pumpkin:

**Step 1:** Apply moisturiser or barrier cream.

**Step 2:** Apply orange using a 5008 Flat 20, and paint a circle, shaping it like a pumpkin at the top, let it dry.

**Step 3:** Using a smaller brush, 5008 Flat 10, apply black around the eyes and nose as shown (you may choose not to apply to the lips).

**Step 4:** Apply green lines and stalk of the pumpkin. Using the thin edge of the brush will give you finer lines.

*Hint: We recommend to keep paint away from eyes, mouth and nose. Apply a moisturiser or barrier cream for sensitive skin and to assist in the removal of the face paint.*

To remove the face paint, simply wash with warm soapy water.
