

# XMAS DECORATIONS

A fun and easy craft project! This activity will get you in the Christmas mood and is a great learning experience for young and old. And, making your own decorations is extra special.

## Learning Objectives:

Creative process, tactile learning, hand eye coordination, colour combination.

Level

Beginner

Expert

## You will need:

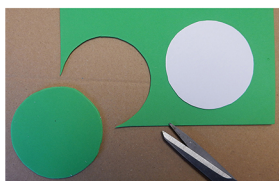

- Art Extra EVA S/Adhesive (green & red)
- Art Extra Glitter Std 6in1 Shaker
- Five Star PVA Glue General Purpose 125 ml
- White Cardboard
- Xmas Wooden Shapes Santa 16 pc
- String

## Christmas tree hanging decoration

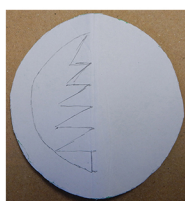

### Step 1:

Cut out 2 circles of EVA and 1 circle of cardboard approximately 85 mm in diameter

### Step 2:

Draw a half tree design on the back of one EVA circles as shown.

### Step 3:

Then fold the circle in half and cut out the tree shape and unfold. Repeat for the other EVA circle.

### Step 4:

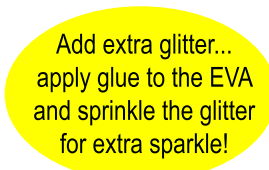

Apply a thin layer of PVA Glue on the cardboard circle and sprinkle on some Silver Glitter.

### Step 5:

Remove the self adhesive backing from the EVA and apply to the cardboard base.

### Step 6:

Cut a piece of string for hanging your decoration and lay onto the edge before sticking the second side of the decoration.

Add extra glitter... apply glue to the EVA and sprinkle the glitter for extra sparkle!

## Santa hanging decoration

Follow previous instructions and substitute Steps 3 & 5 with the following:

### Step 3:

Fold 1 of the EVA circles in half and cut out a semi circle to form an "O" shape border for the decoration. Repeat for the other side of the decoration.

### Step 5:

Remove the self adhesive back from the EVA and apply to the cardboard base. Then cut out 2 EVA squares and stick 1 to inside the boarder as shown. Use PVA to glue a Santa Shape onto the EVA square.

Lots of fun as a group activity
