

SLEDGE HAMMERS

NORMALISED

- A well balanced versatile sledge hammer for building, construction, mining and demolition work
- Head is normalised for a softer face (below 20HRC) that will mushroom, for applications where risk of chipping needs to be minimised
- Our hammers are either secured to our tough Australian hardwood handles or pinned through the steel core fibreglass handle for added safety
- Comfortable, thick rubber grip for better protection from shock and vibration

Product Code	Description	Handle Length	Weight	Barcode
5HSNFRH04	4lb Normalised Hammer - Pinned Core Fibreglass Handle	300mm	2.7kg	9314572011106

5HSNH14	14lb Normalised Hammer - Hardwood Handle	900mm	7.4kg	9314572009400

Why Support Mumme Tools?

At Mumme Tools we are proud supporters of local Australian made products.

Our workshop, located in Lonsdale, South Australia is operated by skilled craftspeople that take pride in the quality products they make.

Our products are made tough, thanks to a passion for hand forging, pressing, grinding and packing here in Australia. All whilst using premium materials.

The quality speaks for itself with our range preferred by industry professionals.
