

SIMPLE KEYLESS ACCESS

The KL1000 is a compact digital lock ideal for replacing keyed cam locks commonly supplied on a wide range of lockers, cabinets and cupboards.

KL1000

This neat lock is easy to fit, taking just a few minutes to remove the existing cam lock and making an additional top fixing. KL1000 can also be fitted to a locker or cabinet that does not have an existing locking device – just drill another hole. Once in place the lock will perform up to 15,000 openings on just two AAA batteries. Access control without the need for keys.

FEATURES

- 11 button keypad
- 8 digit Master and Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code
- Three options available
- Private / Public Function
- Easy to fit and program
- 15,000 operations from 2 x AAA batteries
- Battery Override
- Vertical / right hand / left hand versions
- IP55 rated when fitted with gasket
- All parts / fixings / templates included
- Two year guarantee*

FUNCTIONS

KL1000 vertical

KL1000 right hand

KL1000 left hand

KL1000 has two functions:

Private Function

This is the default function and is already pre-programmed in new locks. This function is used where the same code will be repeatedly used, e.g. a pupil in a school or an employee with the same locker in the workplace.

Public Function

In this function the KitLock operates with a single User Code. The user enters a personal four-digit code. This locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short-term, multiple occupancy applications, e.g. a locker in a sports club.

CODE LEVELS

KL1000 has four code levels available:

8 digit Master Code / 8 digit Sub-Master Code
4 digit User Code / 6 digit Technician Code

The KitLock is supplied with two factory set codes:

Master Code

User Code

Before fitting change the Master and User Code.

For further product model options see price list.

EASY INSTALLATION
