

PRODUCT SPECIFICATIONS

300 INKJET LIGHT A4 P300IJL

Inkjet Light can be used in most ink jet printers.

Produce high resolution transfers for application to light and pastel textiles. Transfers can be applied to cotton, polyester and poly/cotton textiles. Easy to apply giving a soft and high quality result.

Always single sheet feed transfer papers. Allow the ink to dry and do not apply for approximately 8 hours after printing.

In general we suggest the printer settings are set to plain paper and fine or photo quality. Settings on printers vary, therefore produce a test print to determine the best settings.

Print selected image on the blank side of the transfer paper - **mirror image**. Trim around the design with scissors. Pre-heat T-shirt to remove moisture - 3 to 4 seconds. Press at 175°C for 15 seconds with hard even pressure. Remove transfer immediately.

Tips:

- After pressing, gently pull each side of the T-shirt, this will pull up a corner for easy release
- After the transfer has been removed, stretch the t-shirt in both directions. This helps to give a soft feel

45° Blade
Recommended

Print Mirror Image

175°C

Hard even pressure

Pre-heat 3 - 4 seconds
Press 15 Seconds

Peel Warm/Hot

Wash cold (max 40°)
