

PRODUCT SPECIFICATIONS

310 INKJET DARK A4 P310IJD

Inkjet Dark can be used in most ink jet printers.

Produce high resolution transfers for application to dark coloured textiles. Transfers can be applied to cotton, polyester and poly/cotton textiles. Inkjet Dark can also be contour cut using a vinyl cutter.

Always single sheet feed transfer papers. Allow the ink to dry and do not apply for approximately 8 hours after printing.

In general we suggest the printer settings are set to plain paper and fine or photo quality. Settings on printers vary, therefore produce a test print to determine the best settings.

Print selected image on the blank side of the transfer paper, do not mirror image. To avoid showing white areas when applied to the T-shirt, trim around the design. Use a vinyl cutter, with low force, to cut around complex shapes. Remove backing paper and position design on T-shirt. Always cover the transfer with silicone paper during heat press application.

- Press at 160°C
- Time 20 seconds
- Medium pressure
- Remove silicone paper cold
- Not suitable for textiles dyed with sublimation inks
- Textiles should be machine washed inside out in a cool wash only
- Do not tumble dry, dry clean or iron directly over transfer

45° Blade Recommended

Print right reading.

160°C

Medium pressure

20 Seconds

Peel cold

Wash cold (max 40°) inside out. Do Not tumble dry or dry clean.

Do not layer.

Iron inside out. Do not iron directly onto transfers.

Pre-shrunk cotton & cotton/blends, uncoated polyester, spandex, lycra, wool, linen.

Application tape recommended

Standard dimensions: 210x297mm

TRANSFER FILM	ADHESIVE	THICKNESS	LINER
		70 microns +/- 5 %
