

# FASHION IMAGE & FASHION PRINTS

POLI-FLEX® Fashion Image are transfer films with a fashionable design and unique surface finish. The ecologically inert polyurethane film has excellent washing and cleaning properties and is preferred due to a pleasant textile touch.

POLI-FLEX® Fashion Image is suitable to transfer onto textiles such as cotton, polyester/cotton blends and polyester/acrylic.

We recommend using a standard 45° blade. After weeding, the cut flex film is transferred by heat press. The PET liner of all POLI-FLEX® Fashion Image (4280 – 4284) products should be removed warm. We recommend evaluation on test material.

Due to the various influences which occur from production and transfer of plotter lettering, consistency of the carrier materials and also washing and cleaning conditions, product liability can only cover the unprocessed material.

 45° Blade Recommended	 Cut this material in mirror image	 160°C	 2,5 - 3,0 bar Medium pressure
 15 Seconds	 Peel Warm	 Wash warm (60°C) inside out. Tumble Dry normal. Do NOT dry clean.	 Layering not recommended
 Iron inside out. Do not iron directly onto transfers.	 Suitable for cotton, uncoated polyester, poly/cotton, spandex, lycra, wool & linen.	 Application Tape not required.	

Standard dimensions: 500mm x 25m,  
Basketball & Brown Leather 375mm x 25m
