

REFLECTIVE BLACK & CLEAR

Reflective Black & Reflective Clear heat transfer films are suitable to transfer onto textiles like cotton, mixtures of polyester/cotton and polyester/acrylic.

These are a reflective film for decoration can be used for lettering on T-shirts, sport & leisure wear, sport bags and promotional articles. When subject to a light source garments decorated with this product becomes highly visible.

We recommend using a standard 45° blade. After weeding the cut flex film is transferred by heat press. The liner should be removed warm.

Guarantee for a secure and long-lasting bond of this product is only given when following the specified temperature and pressure conditions. We recommend evaluation on test material.

Due to the various influences which occur from production and transfer of plotter lettering, consistency of the carrier materials and also washing and cleaning conditions, product liability can only cover the unprocessed material.

TRANSFER FILM	ADHESIVE	THICKNESS	LINER
Polyurethane, cast	Polyurethane - hotmelt	180 microns +/- 5 %	PET-film, self adhesive

REFLECTIVE HOLOGRAPHIC

Reflective Holo has a multicoloured pattern with reflective properties. It is suitable for transfer onto cotton, polyester and poly/cotton blends.

Reflective Holographic can be used for lettering on T-shirts, sport & leisure wear, sport bags and promotional articles.

Reflective Holographic is very soft and elastic with a strong adhesive. It has high visibility at night and shimmering rainbow colour effects in the light. The material is durable and easy to weed.

We recommend using a standard 45° knife. After weeding the cut flex film is transferred by heat press. The liner should be removed warm.

Guarantee for a secure and long-lasting bond of reflective holographic is only given when following the specified temperature and pressure conditions. We recommend evaluation on test material.

Due to the various influences which occur from production and transfer of plotter lettering, consistency of the carrier materials and also washing and cleaning conditions, product liability can only cover the unprocessed material.
