Energising

Sedating

Terpene Chart

Anecdotal Reports.

- + Indica-leaning hybrid with an abundance of limonene/myrcene/caryophyllene.
- + More relaxation-inducing terpene profile than MAC-1, but not as sedating at high-temperatures as K.Mints.
- + Reportedly brings a 'floating' feeling for mind and body.
- + Great flower for patients new to medical cannabis.
- + High level of functionality while treating chronic pain.

TERPENE	W/W CONTENT	VAPORISATION POINT
Limonene	0.75%	176°C
