

Pastilles (10:10:10)

Alfie Pastilles (10:10:10) are hand-made in small batches and expertly infused with organic, single-cultivar solventless flower extract.

Made with all-natural ingredients, these premium pastilles offer proven consistency, flavour, and texture in 10mg THC doses.

Each medicine incorporates 10mg CBD per pastille, with Indica featuring 10mg CBN (cannabinol) and Sativa with 10mg CBG (cannabigerol).

Each medicine maintains consistent organic flower inputs and flavours, though added cannabinoids may enhance effectiveness at the same price-to-patients.
