

Classification as « ARTICLES » of Markal products according to REACH Regulation

LA-CO Industries Europe S.A.S follows the recommendations and positions of the EWIMA (*European Writing Instrument Manufacturer's Association*) regarding the classification of writing utensils as "ARTICLES" according to REACH definition in the European regulation (EC) n° 1907/2006, Art. 3 (3). So they do not fall under the European Dangerous Preparation Directive.

As a consequence, there is no need to issue EC Safety Data Sheet for the following Markal products:

Product Range	Product Name
Valve Liquid paint markers	Paint-Riter® Industry Marker SL.100 (ex SL.100) Paint-Riter®+ Water Erase SL.130 (ex SL.130) Paint-Riter®+ Low Corrosion SL.250 (ex SL.250) Paint-Riter®+ Low Corrosion SL.250 PMUC (ex SL.250) Paint-Riter® Water Based Paint-Riter®+ Aerospace Paint-Riter® Valve Action Paint Marker (ex Valve Action) Paint-Riter® + Certified (ex Valve Action Certified) Paint-Riter® + Ultra Violet (ex Valve Action UV) Paint-Riter® + Oily Surface (ex Pro-Line HP) Paint-Riter® + Heat Treat (2100F, 2200F) (ex Pro-Line HT) Paint-Riter® + Wet Surface (ex Pro-Line WP) Paint-Riter® Fine (ex Pro-Line Fine) Paint-Riter® Micro (ex Pro-Line Micro) Paint-Riter® + Low Corrosion Fine (ex Nissen Low Corrosion) Paint-Riter® Jumbo (ex Pro-Max) Paint-Riter® + Detergent Removable (ex Pro-Wash D) Paint-Riter® + Water Removable (ex Pro-Wash W) Paint-Riter® + Rough Surface (ex Pro-Line® XT) Paint-Riter® + Galvanizer (ex Galvanizer's Removable Paint Marker) Paint-Riter® Jumbo Feltip (ex Nissen Jumbo Feltip Paint Marker) Paint-Riter® Pocket (ex Pocket Paint Marker) Paint-Riter® Window Marker

For their internal needs, – our customers the MSDS for the inks and paints which are used in our markers. Please keep in mind that the information on these data sheets relates to the ink or paint in bulk. Because our products contain a comparatively small quantity of these inks and paints, most of this information will not be relevant to you.

Assuming our products are used and stored in a normal way, they are not dangerous.

For further information about Ewima position, do not hesitate to contact us.

Best regards,
