### DPU-5 Spring-Loaded Pump Dispenser – 38mm

PART NUMBER	BOTTLE SUITABILITY
CT-DPU-5	Plastic 'Jerry Can' bottles up to 5 Litres with a 38mm diameter cap screw

#### PRODUCT DESCRIPTION

Chemtools® DPU-5 Spring-Loaded Pump Dispenser is a heavy-duty push pump designed to handle viscous liquids such as creams, soaps, lotions, and gels. It suits most plastic 'jerry can' bottles up to 5 Litres with a 38mm diameter cap screw. The internal 23cm dip tube may be cut to size for containers of any height greater than 15cm.

DPU-5 Pump Dispenser is durable and sturdy for use in commercial or industrial environments. Each stroke dispenses a 30ml dose, and when fully depressed, it can be twist-locked in situ for safe transport or space-saving storage. A simple twist in the opposite direction releases the lock, and the stainless steel spring-loaded pump auto-extends to full height once more.

#### TECHNICAL DATA

Colour	White w/White Cap	Weight	30g
Dose per Push/Stroke	30ml	Valve	Cage Ball
Dip Tube Length	23cm	Screw Cap Diameter	38mm
