# PREVOR & ORDERING

## AT RISK OF CHEMICAL BURNS? **DIPHOTERINE SOLUTION**

Diphoterine® solution is an emergency rinsing solution for splashes of chemical products. It is intended for first-aid use on the human body. Its rapid use in case of splashing or contact of the skin or eye with a chemical product makes it possible to limit the extent of the burns and lesions caused. Request a full chemical list.

## A RANGE OF FILTERS AND PREFILTERS AVAILABLE FOR A VARIETY OF APPLICATIONS

**Sundström**

**Sundström**

Sundström Safety protects people from contaminated air. Our aim is to always design and manufacture the best and most comfortable respiratory protection equipment on the market. Today we can present a compatible and modular product range that is flexible and adaptable to both personal comfort and the needs and requirements of the workplace.

Over the years we have invested major resources in the development of user-friendly and individually adapted respiratory protection equipment of the highest quality. Today we can present a compatible and modular product range with mask, hood, screen or helmet in a complete system together with various filters and accessories. Flexible and adaptable to both personal comfort and workplace requirements and needs.

When Ivan Sundström founded the company in 1926, he could not have imagined today's export-oriented business environment. Today, Sundström is run by the third generation of the family but in the same spirit as when it was started.

## CLEANAIR® ASBESTOS KIT

Complete respiratory protection when working with asbestos or silica dust. Full colour display clearly shows the state of the filters and battery. Audio visual alarms alert you when filter or battery need changing / charging. Work for up to 10 hours on a single charge. Battery can be removed and charged on or off the PAPR. An optional heavy-duty battery can be used for up to 16 hours of work time. Areas of application include: Asbestos removal, Concrete cutting & Engineered stone benchtop manufacturing.

CA-ASBKIT

## BREATH RESPONSIVE PAPR

Breathe easy with one of the most compact and easy to use Power Air Purifying Respirators (PAPR) on the market. What's unique about the STS Sync01VP3 is that it's breath responsive so the filter and battery only works when you inhale. This means longer battery and filter life. This PAPR system is designed for use with asbestos, silica dust and other fine particulates. Switchless - the system turns on automatically when you start breathing and turns off 5 seconds after doffing. Cordless - no battery connection cables or air hoses to get tangled up in. LED filter replacement indicator - flashes inside mask when it's time to replace the filter.
