

BEP 701 Panel Mount Battery Switch

Imax : 275 A continuous
455A intermittent
1250A cranking (5s)

BEP 701-PM panel mount Contour battery switch, single pole. Rated 275A continuous (1h), 455A intermittent (5min), 1250A cranking (10s). The actuator can be removed after rotating anticlockwise 45° from the off position. The actuator also features an interchangeable labeling system, allowing a full range of applications (see 150920). Dimensions 68mmx68mm, fastening holes d5,5mm in 54,5mm square, cutout 50 mm, shallow mounted protrusion 51mm, intrusion 16mm. Deep mountable in a 52mm cutout (protrusion 30,8mm, intrusion 36mm). Studs M10 tin plated copper. For flush mounting plate see 150900. Switches can be interlinked using solid links, see 151900 etc.

Part Number: 150002

Description: BEP 701PM
Panel Mount Battery Switch
(BEP 701PM)
