Cable Glands Specialists

Index Marine is pleased to announce a new addition to its extensive range of IP68 cable glands.

SE7-IP68 Two Cable Side Entry Gland

The new SE7 is supplied with 2 seals suitable for cables from 3mm to 6mm diameter making it ideal for installing equipment with 2 single core cables.

A1-SE7	Specification
Material:	Glass filled Nylon
Size (LxWxH):	82x62x24mm
Min/Max Cable Ø	2 cables 3 to 6mm
Seal Material:	Silicone
Seal Hole Size	2 x 3.5mm & 2 x 5.5mm holes
Fixings:	A4 Stainless
Base Gasket:	Foamed neoprene (closed cell)

The SE range of glands offer the perfect solution for vessels with limited space or when loops from a conventional top entry gland are not appropriate.

- Quick and easy to fit.
- Made from tough UV stable glass reinforced Nylon.
- Waterproof IP68.
- SE1, SE5 and SE6 are single cable entry with a size range of 2 to 12mm.
- Ideal for use when installing solar panels, side mount navigation lights, VHF or other cables.
