

WEMA Tank Level Senders – Flanged

TANK LEVEL SENDERS – FLANGED

This range of innovative level senders is the design that launched Wema. Utilising the renowned Wema reed switch concept this popular device is available in a myriad of lengths to suit any tank and are suitable for use in both fuel and water tank applications. This version is the flange mounted type.

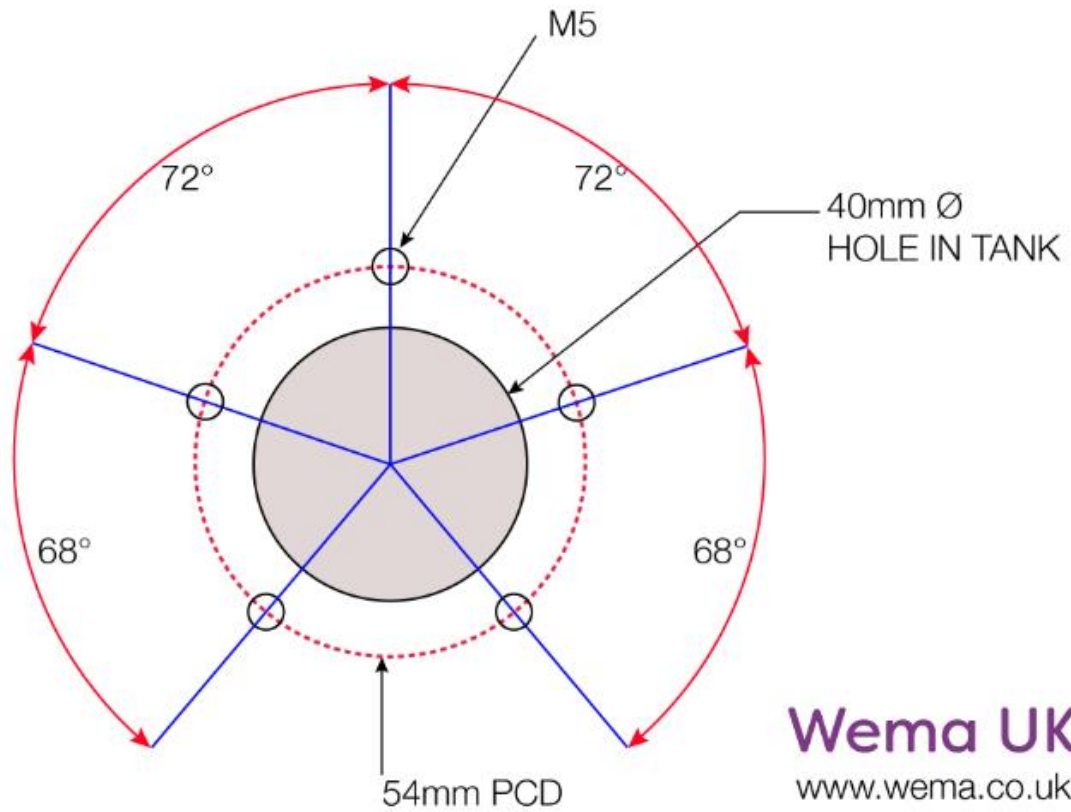

Sensing: Magnetic Reed Switch
Output: Resistive (US and EURO Standards)
Connection: Flying Leads
Mounting: SAE 5 Hole Flange
Material: 316 Stainless Steel
