Slim Line Courtesy

Attractive, energy efficient lighting for interior and exterior use.

Hella marine Slim Line LED courtesy lamps can be installed almost anywhere on board.

Advanced lens technology provides a cool and even spread of soft light without glare or eye strain.

Hella marine LED courtesy lamps run very cool due to their low current draw of less than 0.5W (less than 0.04A @ 12V). This provides safer installation into light weight materials where the heat of incandescent lamps may cause damage to the surrounding structure.

Each lamp is completely sealed, highly shock, impact and vibration resistant, perfectly suited for the demanding marine environment.

Surface mounting accessory rings provide numerous installation options with surface finishes to compliment or contrast the lamp rims.

Hella marine LED courtesy lamps represent ultra reliable, energy efficient, 'fit and forget' technology.
