

Hellamarine RokLUME 380N LED Work Lamp

Close Range Heavy Duty PN 1GA 910851-011

The RokLUME 380N Close Range features a powerful **light output of 7500 measured lumens** and an extremely robust design, ideal for the most demanding environments and applications. The latest LEDs and engineered optics combine to produce a broad and even light reaching up to 142m long by 100m wide. The colour temperature of 5000K is similar to daylight meaning improved comfort and reduced eye strain over long periods of use.

NanoSafe Housing Technology

NanoSafe is an advanced non-stick and easy to clean surface coating. Three additional layers were included into the NanoSafe coating leading to much higher and longer resistance against corrosion.

The NanoSafe technology is ideal for extremely harsh marine conditions.

The lamp is extremely tough! A hard-coated polycarbonate lens provides increased protection against impact. Secure and reliable mounting is achieved thanks to the heavy duty 316 stainless steel bracket and a proven rubber dampening system keeps vibration in check.

- **Massive 7500 Lumen measured light output**
- **Completely sealed against dust and water**
- **Rugged, tested to 200g shock loads**
- **Double insulated silicone supply cable with DT connector**
