

MS-IP700i

MARINE ENTERTAINMENT SYSTEM FOR iPod

Introducing the next generation NMEA Technology award winning FUSION 700 Series marine entertainment system.

Sources: AM/FM/USB/VHF/AUX/iPod/iPhone/Android/SiriusXM-Ready (USA Only)

The MS-IP700i features an improved remote connector for increased reliability and an external USB connector for iPhone 5 and Android Media Device connectivity. To securely protect your Apple or Android

device, FUSION recommends the MS-UNIDOCK which also charges the device while connected to the stereo. Featuring the 3rd generation internal iPod dock, which securely protects and charges your iPod or iPhone from the elements. The MS-IP700i introduces advanced Android audio integration, which allows the stereo seamless access to play audio from compatible Android devices through the familiar and intuitive user interface. Navigate audio via Artist, Album, Playlist or Track with FUSION's Alpha Search Technology available on both the Apple and Android Platform.

With the addition of the optional MS-BT200 Marine Bluetooth Module, customers can now stream their favourite audio directly from their compatible smartphone or A2DP Bluetooth enabled media device. Track information and song duration is displayed on screen, with Direct Stereo Control (Play, Pause, Skip) or Media Device Control options available.

With the FUSION-Link revolution in full force, more marine electronics manufacturers are developing software to access the protocol. FUSION-Link partners include Garmin, Raymarine, Furuno and Murphy, allowing the MS-IP700i more connection options than any other entertainment manufacturer in the world.

The MS-IP700i features 4 independent audio zones, each with adjustable volume, balance and sub level. Localised zone control is available when a MS-NRX200i wired remote is installed in each zone.

FEATURES

IMPROVED CONNECTIVITY

The MS-IP700i features an external USB connector for improved media device compatibility. An improved marine grade FUSION Remote Control Network connector for added reliability and simplicity.

ADVANCED AUDIO INTERFACE

Whether you have a compatible Apple or Android device the 700 series offers superior playback, operation and audio menu navigation. Access your audio via Artist, Album, Playlist or Track with FUSION's Alpha Search Technology available on both platforms.

BLUETOOTH AUDIO STREAMING

With the addition of the MS-BT200 Marine Bluetooth Module (sold separately) you can now stream your favourite audio tracks to your MS-IP700i marine entertainment system with ease.

FUSION-Link

Certified marine Multi-Function Displays (MFD's) become the entertainment control centre for the entire vessel once connected to the MS-IP700i Marine Entertainment System via a NMEA 2000 or Ethernet connection.

MS-IP700i

NMEA 2000 CERTIFIED

Connect the MS-IP700i to an existing NMEA 2000 network and communicate with FUSION-Link Certified Multi-Function Displays (MFD) and FUSION's NMEA 2000 Certified Wired Remote (additional cable required).

ETHERNET READY

Supports FUSION-Link Certified MFD's plus the iPad, iPhone and Android remote app available for download

INNOVATIVE 4 ZONE CONTROL

Adjust the volume and subwoofer level in four separate zones onboard your vessel. Zones are nameable for added convenience. Have loud music in the cockpit and quieter music in the saloon.

- 280 Watts x 4
- Hi-Fi Class-D Amplifier
- Daylight viewable LCD
- Aluminium chassis
- Arm 9 processor
- IPx5 Water resistant
- Ethernet Connectivity
- NMEA 2000
- SiriusXm-Ready
- 4 Zone Control
- Multi Language interface
- 12 or 24 hour clock
- Bluetooth Streaming wth optional MS-BT200

Note: A Software upgrade is required before Android and Bluetooth functionality can be accessed.
