

CREATIVE PHOTOGRAPHY MONITOR COMBO DEALS

Vivid Colours

The wide colour gamut of ColorEdge monitors reproduces almost the entire Adobe RGB colour space so images shot in Adobe RGB will be displayed correctly. Photos of Vibrant blue skies and lush green forests are reproduced faithfully in a way that monitors limited to an sRGB colour space cannot display. The wide colour gamut also ensures reproduction of almost the entire ISO-coated and US web coated CMYK colour spaces used in printing.

SMOOTH GRADIENTS

The gamma level for each ColorEdge monitor is adjusted at the factory by measuring the R, G, and B gamma values from 0 - 255, then using the monitor's 16-bit look-up-table (LUT) to select the 256 most appropriate tones and achieve the desired value. This ensures the smoothest colour gradations in your images.

AROGRADE CG2730

P101 Case, i7 CPU, 500GB M.2, plus a 4-8TB HDD. Combined with Eizo CG2730 monitor, containing a 27" Display, QHD resolution with built in colour calibrator. Includes CH2700 Monitor Hood

AROGRADE CS2731

P101 Case, i7 CPU, 500GB M.2, plus a 4-8TB HDD. Combined with Eizo CS2731 monitor, containing a 27" Display, QHD resolution. *CH2700 Monitor Hood and calibration sensor can be bought separately.
