KEEPING
TRACK

PROMASTER
KEY MANAGER

WHEN KEY CONTROL MEANS EVERYTHING

For any organisation where key tracking and restricted access security are operational requirements, ProMaster Key Manager is the leading solution.

ProMaster Key Manager is designed to track who has your keys and where the key holder can access, providing the ultimate in effective security. Many of the world's largest organisations have selected this comprehensive software programme to provide the best in key tracking and management.

They include major airlines, prisons, universities, schools, casinos, hospitals and security agencies.

Now you can keep total control over your keys in one easy to use, feature-packed programme with ProMaster Key Manager.

["Providing the ultimate in effective security."]

Key tracking made simple

ProMaster Key Manager has been designed to be very simple to use. No formal training is required. All you do is follow the step-by-step instructions that are included in the ProMaster Key Manager programme. All aspects of the tracking and reporting systems are automatic functions of the programme.

User defined security

As with most organisations, key holders usually have varying degrees of security clearance. ProMaster Key Manager makes it easy to provide multiple security levels with usernames and passwords for staff to access permitted parts of the programme.

Simplified reporting system

With ProMaster Key Manager you can generate professionally designed reports that are clear and concise with the click of a mouse. Each report covers all aspects of your key tracking from issue to return:

- An inventory of keys in your control
- Who has been issued keys
- Where each key can access
- Who can access specific doors
- Generation of responsibility acceptance forms
- Compromised doors from lost keys

Easy networking

Networking is simple with ProMaster Key Manager supporting simultaneous multiple-user access, or can be operated on a standalone basis.

Feature-packed programme

- Makes managing key issues and returns easy
- Provides alerts for overdue keys
- Prints clear and concise reports regarding holders and keys issued
- Easy to install, configure and use
- Able to track any number of keys
- Locksmith supported systems
- Stand-alone systems

Direct link to your locksmith

You can link directly with any locksmith or lock manufacturing company using the ProMaster Master-Keying 7 system via ProMaster Key Manager. This allows you to receive regular updates and to order additional keys by email.
