

PREMIUM GOLF BLENDS

Fine fescues are excellent choices for golf fairways, surrounds and rough areas, as well as low maintenance areas such as roadsides and home lawns.

The improved varieties contain high levels of endophyte for insect resistance, stress tolerance and improved Dollar Spot control.

Blend	Composition	Features	Rate
Golf Blend	50% SR5130 Chewings Fescue 50% Ruddy Creeping Red Fescue	Ideal for general Golf Course use, providing improved density, colour and performance.	2-3kgs/100m ²
Golf Rough	50% SR3210 Sheeps Fescue 50% SR3150 Hard Fescue	Blended for use in rough, re-claimed areas and mounds. Will require little input once established.	2-3kgs/100m ²
Golf Links	40% SR5130 Chewings Fescue 40% Ruddy Creeping Red Fescue 20% Shoreline Slender Creeping Red Fescue	The addition of Shoreline Slender Creeping Red Fescue to the SR5130 and Ruddy fine fescues gives the blend excellent salt tolerance as well as fine textured turf.	2-3kgs/100m ²
