

# ADVANCED SEED PASTURE EQUINE SEED BLEND

IDEAL FOR ALL PASTURE REGIONS

- Deep rooted varieties
- Drought tolerant blend
- No ryegrass or high endophyte
- Provides good grazing and fertility
- Horse friendly

Pasture Equine is formulated specifically for horses. Its palatable varieties are designed to rejuvenate pastures with good germination and establishment. Pasture Equine is good in difficult, drier areas where grazing is consistent. It will give a boost to run down paddocks and is suited to low summer rainfall.

## Seed Mixture By Count:

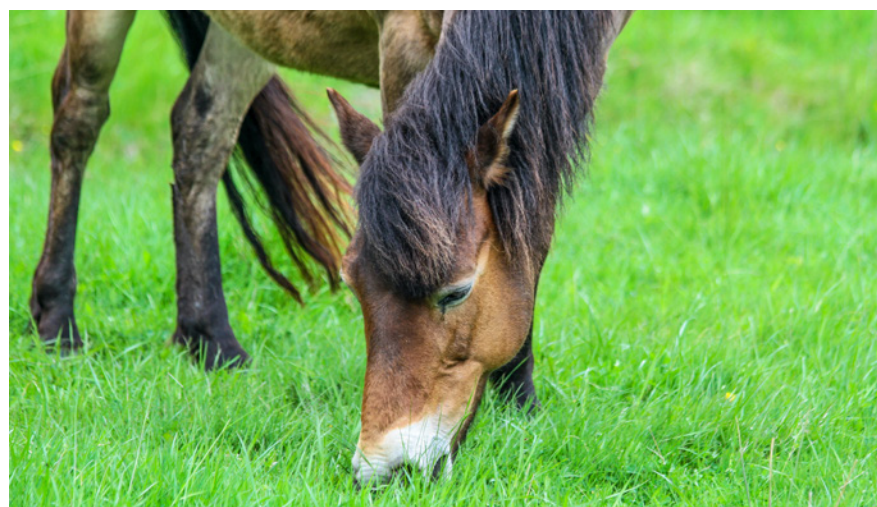

70% Forage Tall Fescue  
20% Cocksfoot  
5% Sub Clover  
5% White Clover

## Sowing:

Sow Pasture Equine Blend with adequate soil moisture in early autumn at 10-20mm. Seed bed should be well prepared and firm for maximum production.

## Sowing Rates:

Sow at between 30-40kg per hectare. For surface sowing or poor seed beds use higher rates.
