

NITRO GREEN IRON BOOST LIQUID FERTILISER

LIQUID FERTILISER

PACK SIZE: 1 LITRE

Nitro Green Iron Boost is a professional grade liquid fertiliser specifically formulated for dark emerald green high quality turf. This formula combines 15% Nitrogen, 6% Iron and 4% Manganese (as Citrate Complex) for a high quality turf.

Nitro Green Iron Boost Liquid Fertiliser provides a rapid and impressive green up within 5-7 days.

Analysis:

15% N WITH 6% Fe AND 2% Mn

Application:

Nitro Green Iron Boost Liquid fertiliser should be used 5-7 days ahead of any special event to dramatically improve the colour of sports grounds, playing fields or turf areas.

Compatibility:

This product may be mixed with most fertilisers, fungicides, insecticides and inoculants. Ensure all product labels are read carefully. Always check compatibility prior to mixing.

Typical Analysis:

Nitrogen	(N) as Urea	15%
Iron	(Fe) as Citrate Complex	6%
Manganese	(Mn) as Citrate Complex	2%

Product Characteristics:
