LOCKED AIR HI-SPEED AIR PILLOW MACHINE E4S

Built for fast, efficient despatch, the E4S creates air pillows and bubble cushioning on demand for everyday carton protection. It helps reduce bulky void fill storage, protect products in transit and keep packing moving with reliable inflated cushioning.

Air cushions on demand. Less bulky storage.

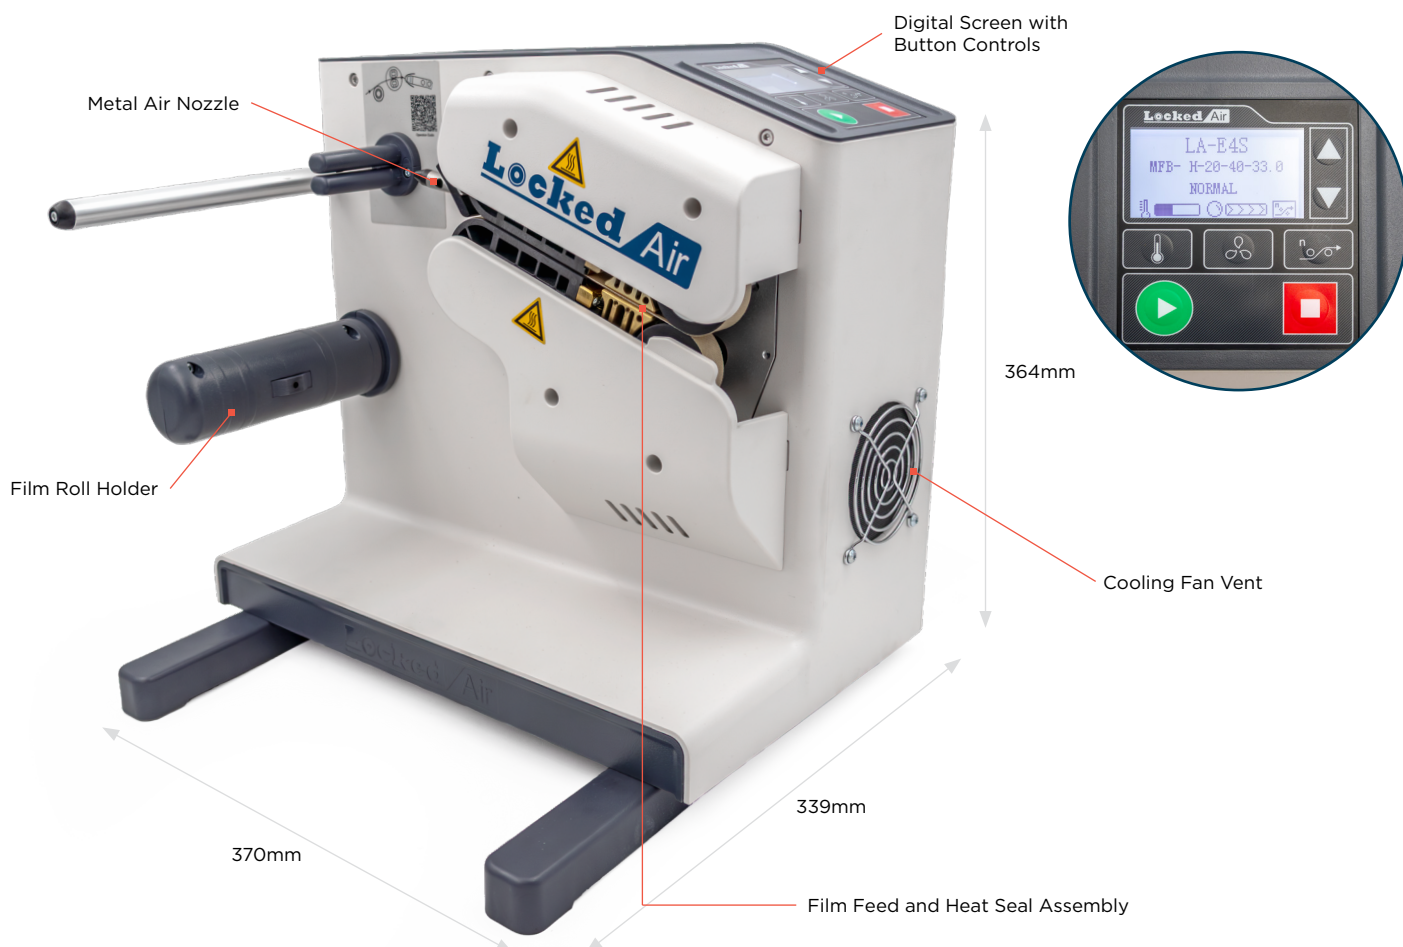

18m/min

200-800mm

LOCKED AIR HI-SPEED AIR PILLOW MACHINE E4S

Pre-Set Film Modes

Wrinkle Free Seals

Easy Film Roll Change

Key Features:

- Creates air pillows and bubble cushioning on demand
- Easy to use button controls with digital screen
- Fast output up to 18 metres per minute
- Pre-set film modes for faster, repeatable setup
- Automatic temperature control helps maintain reliable sealing
- High inflation rate for consistent cushion output
- Adjustable speed and air settings for different films
- Strong wrinkle free seals for reliable cushioning
- Ideal for busy packing lines and high volume warehouse despatch environments
