Grafityp signmaking films

The Signmaker's choice

www.Grafityp.com

The Graftack 200/300 series is a range of flexible self-adhesive polymeric calendered PVC films for long term outdoor applications (up to 8 years) on an even or slightly curved surface.

The Graftack 200/300 series is supplied on a 120 gram silicone paper. A high-quality solvent based permanent acrylic adhesive guarantees perfect adhesion on all kinds of surfaces.

The Graftack 200/300 series was developed for all outdoor applications of up to 8 years when applied on a flat, unribbed background, such as sign making on cars, boats and trucks, for long term decorations of shop windows and advertisement boards. It is also perfect for everyday advertising indoors and outdoors.

A wide range of sparkling colours guarantees a magnificent end result time and time again.

Properties	Method (unit)	200-300 series	1225 1226
Thickness	Din53370 (micron)	75	50
Elongation at break in length direction	Din53455	> 120	> 155
Elongation at break in cross direction	(percentage)	> 140	> 155
Dimensional stability mounted on aluminium (10 x10 cm)	Finat 14 (percentage)	< 0,40	< 0,40
Degree of gloss	Din67530 (percentage)	min. 50 (meas.angle 20°)	>60 (meas.angle 20°)
Adhesion strength after 20 minutes	Finat 1	13	12
Adhesion strength after 24 hours	(N/25mm)	16	12
Quickstick	Finat 9 (N)	9	3
Outdoor life span (in Central European conditions) Metallics : 1217 - 1218 - 1334 - 1335 - 1336		up to 7 years up to 3 years	not applicate
Temperature range at application		+5°C to +40°C	+5°C to + 40°C
Temperature range at use		-20°C to +70°C	-20°C to +150°C
Flammability	when applied to aluminium, glass, steel: self-extinguishing
