

MASTERSEAL EXTREME LAMINATOR 1630MM

Hand-held Control Interface

Built-in Static Removal

A professional electric laminating machine designed for the top-end user who needs speed! For use with pressure sensitive film up to 1630mm wide. Heat assist is standard to reduce the incidence of “silvering”. Easy to use and very fast production!

Features

- Simple electrically lifted top roller, no need for compressor or winding handles
- Infrared sensor to detect foreign objects
- Industrial grade handles
- Built-in slitters for trimming laminated prints
- Smart foot pedal control for speed and precise lamination
- Anti static bar system for removing static
- Printed mandrel and take up included

MODEL: MASTERSEAL EXTREME LAMINATOR 1630mm

Max Lamination width: 1630mm

Max Lamination Thickness: 35mm

Max Speed: 30m/min

Temperature: Room temp-60°C (cold), 90-120°C (hot)

Up/Down Controls: Electrically Operated

Heating Type: Infrared

Warm Up Time: 5-10min

Power Consumption: 0.5-0.8kw/h

Power Input: 1500w

Input Voltage: 110/220v

Net Weight: 260/300kg
