

VIRUCLEAR

PRODUCT INFORMATION

Broad Spectrum Surface Sanitiser

Powerful concentrated hard surface sanitiser with 7.99% hydrogen peroxide. Developed specifically for reducing infectivity of coronaviruses, known to persist on surfaces such as metal, glass and plastic for up to 9 days. Suitable for use in commercial, industrial, health care and other public facilities.

DIRECTIONS

Spray n Wipe Application

The use of gloves is highly recommended. Dilute Viruclear 1:15 (or use a 30ml plunger to dispense 60ml of product from 5L container for a 1L bottle) with cold water. Spray onto surface and allow 30 seconds of contact time for full sanitising action to take place. Wipe surface with clean cloth to remove any moisture and allow to air dry.

Pour Application

The use of gloves is highly recommended. Dilute Viruclear 1:15 (or use a 30ml plunger to dispense 60ml of product from 5L container for a 1L bottle) with cold water and pour onto hard surfaces. With a clean cloth move the solution across the entire surface to be sanitised. Allow 30 seconds of contact time before removing excess situation with a damp cloth.

Bulk Spray Large Surface Areas

The use of gloves and face mask is highly recommended. Dilute Viruclear 1:15 (or use a 30ml plunger to dispense 60ml of product from 5L container for a 1L bottle) with cold water and pour into a backpack or pump up sprayer. Spray surfaces to be sanitised thoroughly with Viruclear solution and allow to air dry. Thoroughly rinse sprayer after use.

Please Note: Surfaces that show large amounts of gross soiling will need an initial pre-clean before a final sanitising step.

In situations where there is a known viral or bacterial contamination a 1:10 dilution should be used.

PROPERTIES

| | |
|-------------------------|--------------------------|
| APPEARANCE | Clear, colourless liquid |
| FRAGRANCE | No fragrance |
| SPECIFIC GRAVITY | 1.024g/mL |
| pH | 7-8 |

REORDER

| | |
|-------------------|-------------------|
| Applicator | BI-VIRUC01 |
| 5 Litres | FK-VIRUC05 |
| 20 Litres | FK-VIRUC20 |

USE WITH 30ML PLUNGER

CONCENTRATED SANITISING SUPERHERO

JUST A  5 LITRE CONTAINER

MAKES
83L
OF READY-TO-USE
SANITISER*

*BASED ON DILUTION RATIO: 60ML OF PRODUCT WITH COLD WATER TO MAKE 1L OF READY-TO-USE SOLUTION. USE A 30ML PLUNGER TO EASILY DISPENSE THE RIGHT AMOUNT OF PRODUCT FROM A 5L CONTAINER TO A 1L SPRAY BOTTLE.
