

# Kemsol

# **MOSS-KILL**

#### **PRODUCT INFORMATION**

**LONG-LASTING ACTION** 

**FOAMING BASE FORMULATION** 

**CHLORINE-FREE** 

**ACTIVE FOR 12 MONTHS** 

### Algae Mould Moss & Lichen Control

Kills and helps prevent moss, mould, mildew, lichen and algae growing on most exterior hard surfaces. Biodegradable and at recommended dilution rates has low toxicity for plants and animals. As a precaution any foliage should be fully rinsed if contact occurs. Ideal "spray and leave" solution.

#### **DIRECTIONS**

For optimum initial application use at a ratio of 1:4 (200mls per litre, 20% soln) with cold potable water and a ratio of 1:20 (50mls per litre, 5% soln) for subsequent applications. Spray onto surfaces, and leave.

For best results allow a dry contact time of at least 3 hours. Most surfaces do not require rinsing although some aged painted surfaces may require a rinse to avoid streaking.

#### **GOOD PRACTICE**

Under Good Practice Protocol based on accepted international research a 1% solution of this product, diluted with potable water, is recommended with liberal application on clean hard surfaces with a minimum contact time of 10 minutes. At this concentration the product provides 1000PPM QAC.

**EXTERIORS** Most hard surfaces where moss, mould, fungi & yeast are present

#### **PROPERTIES**
