

TASKI®

The **ULTIMATE**
Cleaning Machines

Tougher, stronger. Cleaner air. More power.

TASKI®

AERO

The new class of **ULTIMATE AEROs**

AERO 8 / AERO 8 Plus / AERO 15 / AERO 15 Plus / AERO 15 Power

New for 2021 the AERO tub vacuum range gets an upgrade.

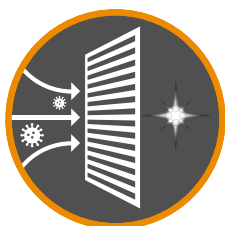

Enhanced to be tougher and stronger, alongside the introduction of the new Power model, there's an AERO vacuum that's perfect for you.

Whats new?

Robustness

Redesigned parts built from better materials. Wheels, covers joints and cables, now work even better and last even longer. A tougher telescopic tube, metallic elbow and hose connector complete the refit of a tougher cleaning machine.

Filtration

The new AERO tub vacuums provide a tougher clean for floors and produce cleaner air while they do it. HEPA H13 filters in AERO PLUS and AERO 15 POWER models create superior air quality during operation. Read [our whitepaper](#) on Indoor Air Quality to find out more.

Performance

With construction and accessory upgrades for AERO vacuums, performance is elevated and results are improved along with it. The AERO POWER model also provides a 15% power boost to further elevate cleaning results, the safety of your space and your peace of mind.

AERO Technologies

Whisper

Whenever cleaning takes place, it should be discreet, without drawing attention to itself. Our patented whisper technology uses 50% less energy and not only minimises disruption but protects the wellbeing of operators too.

[Read more](#)

HEPA H13

HEPA H13 filters are required to filter, on average, at least 99.95% of particulate matter from the air. Whether that be particulate be soilage, pathogens or microorganisms, a HEPA H13 filter means one thing. Cleaner air.

[Read more](#)

Sustainability

Parts that last longer built into machines that are more energy efficient. Sustainability is about the choices we make, with the new line of AERO upgrades and AERO POWER, we're giving you a better, more sustainable choice.

[Read more](#)

Digital Motors

Digital motors are, simply put, better motors. Smaller, lighter construction paired with higher cleaning efficiency and greater sustainability makes digital motors the brushless future. Lighter for operators they increase ergonomics, while reducing energy draw.

Downloads: Our Trio of TASKI AERO Whitepapers

AERO Vacuum IAQ

Indoor Air Quality is of increasing importance, not just as a result of the pandemic, but changing legislation across the continent. Find out how AERO HEPA filtration creates cleaner air for everyone in your facility.

[Read the whitepaper](#)

AERO Vacuum Energy

Energy efficiency is a commercial and sustainable essential for all businesses. The energy we never create is energy we never pay for, which is energy that isn't generated with an environmental cost.

[Read the whitepaper](#)

AERO Vacuum DTC

Much debate surrounds the merits of Day Time Cleaning (DTC) as the modern cleaning method of choice for professional industries. What role does it play in staff retention and how can you account for it through technology?

Meet the **AERO** family

TASKI®

AERO

AERO 8

The ultra-efficient, whisper quiet tub vacuum that cleans beyond the expectation of your customers, delivering the results and peace of mind you want.

AERO 8 PLUS

The plus model of the Aero 8 adds HEPA filtration alongside additional ergonomic functionality and an eco-button that reduces energy use and carbon emissions.

AERO 15

The next step up from the AERO 8, the AERO 15 offers increased capacity with the same parts improvements and optimised 585W motor that performs like 900W.

AERO 15 POWER

The AERO 15 POWER delivers more. 15% more power ensures that even on the toughest jobs you get the results you want for the protection you need.

Meet the **AERO** family

AERO 15 PLUS

Additional air filtration and easy to change parts, makes the AERO 15 PLUS a success with operators who want to clean to high standards, not for long periods.

AERO UP

The light but powerful AERO UP covers hard floors and carpets with up to an hour of run time on a single 90-minute charge.

AERO BP E

The super-lightweight 4.7kg vacuum that allows freedom of clean. All AERO BPs are 3in1. A backpack + tub vac + blower function all in one for great value. Take the power of TASKI wherever you need.

AERO BP B

The AERO BP B takes cleaning further afield with its built-in battery pack. Now wherever you need to clean, the TASKI peace of mind can be right there with you.

AERO BP B PLUS

The AERO BP B PLUS is ULTIMATE cleaning unleashed. Clean smarter with a digital motor, 3 speeds, remote control and 60min run time.

AERO 3500micro

The AERO family's ride-on vacuum sweeper that creates unmatched levels of cleaning productivity. Multi-surface operation means no matter the clean, the AERO 3500micro can help.

Evolution

60 Years of Evolving Innovation

These AERO upgrades are the next era of the TASKI vacuum cleaner range.

For the last 60 years, TASKI has repeatedly brought innovation to our machines. Constantly developing them bring better results and better value for customers.

These upgrades are the latest iteration of 60 years of cleaning dedication. Each new model an improvement, each pushing at the edge of innovation.

We believe our machines should always be the best they can be.

And they always will be.
