SECTION 6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Minor Spills	Flush away with copious amounts of water.
Major Spills	Absorb on sand, dirt, vermiculite or similar absorbent material. Place into labelled drums and dispose of according to local government regulations. Immediately notify emergency services (Police or Fire Brigade) if the spill is too large for you to safely and effectively handle. Prevent by any means available any spillage entering a watercourse.
PPE	Personal protective equipment advice is contained in Section 8 of this SDS

Ingredient	Original IDLH	Revised IDLH
N-methyl-2-pyrrolidone	Not Available	Not Available

Exposure controls

Appropriate engineering controls	Always maintain adequate ventilation. In most circumstances natural ventilation systems are adequate. However if ventilation is poor some form of forced ventilation should be provided
Personal protection	
Eye and face protection	IF PREGNANT it is important to take precautions to avoid any skin contact with the product. by using a face mask
Hands/feet protection	IF PREGNANT it is important to take precautions to avoid any skin contact with the product by using suitable elbow length gloves.
Body protection	IF PREGNANT wear and overall.
Other protection	IF PREGNANT use a suitable respirator mask to avoid inhaling vapours See note below.

Respiratory protection

Type AK-P Filter of sufficient capacity. (AS/NZS 1716 & 1715, EN 143:2000 & 149:2001, ANSI Z88 or national equivalent)

The wearer must be warned to leave the contaminated area immediately on detecting any odours through the respirator. The odour may indicate that the mask is not functioning properly, that the vapour concentration is too high, or that the mask is not properly fitted. Because of these limitations, only restricted use of cartridge respirators is considered appropriate.
