
The TL-MPOCLEANER employs microfibers designed specifically for optical connectors to remove even the smallest contamination not visible to the naked eye. Please take advantage of the improvements you will receive in optical construction working efficiency and in communication services reliability

Features

One-push operation with no special skills required

The specially designed microfibers remove contaminants by an easy push operation without damaging the delicate optical fiber core.

Features

One-push operation with no special skills required

The specially designed microfibers remove contaminants by an easy push operation without damaging the delicate optical fiber core.

Compact design with workability in mind

Brings you the possibility of over 600 cleanings in a very portable compact design that excels in workability.

Compatibility for both plugs and adaptors in one unit

In addition of optical port adaptors, attaching the cap (included) allows you to also easily clean plugs too.

Specifications

Style	Push Style Port Cleaner
