SUSTAINABLY SOURCED & CERTIFIED, GLOBALLY & LOCALLY

ECNZ - Environmental verification you can trust

Tuffy Commercial is proudly licensed to display the ECNZ ecolabel. ECNZ certification is initiated and endorsed by the New Zealand Government and operated by The New Zealand Ecolabelling Trust.

It recognises the genuine moves made by manufacturers to reduce the environmental impacts of their products, and provides a credible and independent guide for customers who want to purchase products with a lower environmental impact.

PEFC - The world's largest forest certification system

All Cottonsoft B2B paper products carry PEFC certification. This means that you can be sure that your products are sustainably sourced, with fibre from responsibly managed forests and ecosystems.

The PEFC certification also extends beyond the environment and ensures that the products are made to the highest social standards including employee rights, education and cultural values. Our products have held this certification since 2013.

Love NZ - Soft plastics recycling scheme

Cottonsoft Limited is a foundation supporter of Soft Plastic Recycling. This is an industry initiative, lead and funded by retailers & suppliers.

This scheme recycles over one million units of plastic packaging each month in New Zealand into items such as plastic Futureposts & 2nd Life garden edging.
