

# Alcohol based spray sanitiser

### **Description**

Alcosan is a ready to use alcohol based spray sanitiser which is safe to use on food contact surfaces as a no rinse sanitiser. Recommended for use on high risk areas to maintain hygiene standards in the food, beverage and dairy industries.

**VT10** 

### **Key properties**

- Alcosan is an alcohol-based sanitiser also containing low levels of organic sequestrant and quaternary ammonium compound (QAC). It is specially formulated for direct application to surfaces when it is impossible or undesirable to use large amounts of water-based products. It is effective against most vegetative forms of micro-organisms.
- •Alcosan is safe for use on food contact surfaces and evaporates rapidly, leaving virtually no residue. It is recommended for use in high-risk areas to clean and sanitise conveyors, fillers and other equipment after small product spillages etc. It can also be applied during mid-shift breaks to maintain a good standard of hygiene until production is restarted again.
- •Alcosan is suitable for use with the spray applicator provided or using a clean dry cloth or tissue.

#### **Benefits**

- Ready-to-use, supplied with spray applicator.
- Especially suitable for moisture-sensitive areas.
- Effective product spills broad-spectrum activity.
- Sanitises after minor spills.
- · Low residue.

### Alcohol based spray sanitiser

#### **Use Instructions**

Use Alcosan neat, safe to use on food contact surfaces as a no rinse sanitiser. 1. Preclean surface to remove gross soiling. 2. Spray Alcosan neat onto surface. 3. Leave to dry, no rinsing required.

Note: Avoid spraying near motors or other unprotected electrical equipment.

#### **Product compatibility**

Alcosan is safe when applied as recommended for use on materials commonly found in the processed food industry. However, avoid spraying onto polycarbonate and other plastics that are susceptible to stress cracking. In the event of uncertainty, it is advisable to evaluate individual materials before any prolonged use.

### **Product Specifications**

Appearance	Clear colorless liquid
Relative density (20℃)	0.96
pH (neat at 20°C)	7.1

The above data is typical of normal production and should not be taken as a specification

# Safe handling and storage information

Store in original closed containers, away from sunlight and extremes of temperatures. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

#### **Safety Reminder:**

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available online at www.diversey.com or by calling Toll free: Australia, 1800 647 779 or New Zealand, 0800 803 615.
