

MULTI-PURPOSE

SPRAY KLEENA

All purpose solvent cleaner

Description:

Spray Kleena is a highly versatile multipurpose cleaner which may replace a wide range of both general and specialist cleaning products designed to remove grease and oil. Where Spray Kleena can replace more than one specialist cleaning product then savings can usually be made on both the cost per litre used and on the reduced inventory cost incurred when stocking one product instead of two or more. Spray Kleena possesses excellent detergency to enable normal food industry cleaning functions to be performed at low dilutions, yet can be used neat to solve tough problems such as removing "hard" body soaps from plastic bathroom fixtures without abrasives. Spray Kleena contains anionic and non-ionic surfactants, solvents, chelating agents and soil suspending silicates.

Directions for use:

Area of clean	Dilution
General Cleaning	1% Buckets, sprays and foamers
Rendering Areas	10% Spray or scrub on, hot hose off
Engine Cleaning	10% Heat engine, spray on hose off
Laundry	5% Pre-soak, neat for spotting
Upholstery	Use neat to remove body soap build up
Windscreens	2% Add to car windscreen washers
Oven Cleaning	30% Preheat to 175oC, spray on, leave 30 mins then wipe clean
Garage Floors	Scrub in neat, wait 5mins, hose clean.

Safety Information:

- If poisoning occurs contact a doctor or Poisons Information Centre. Phone New Zealand 0800 764 766.
- If aspirated into the lungs, remove from exposure.
- If swallowed, do NOT induce vomiting, give water to drink and seek medical attention.
