

Sugar Soap

Heavy Duty Cleaner

XL Sugar Soap is a heavy duty soap solution for the removal of grease and other contaminants from walls, floors and other hard surfaces. Sugar Soap is ideal for the preparation of surfaces prior to painting or wall papering.

Directions:

General Cleaning: Add 200ml of Sugar Soap to 10litres of water. Apply with a damp cloth or sponge. Depending on level of contamination, rinsing may not be necessary, but if residues of dirt are evident a water rinse is recommended.

As a pH Adjuster for Pool Water: Pour into pool required amount away from pool wall. The figures provided are for average water conditions you should also use your test kit to and adjust dose rates as required.

FEATURES:

- Professional strength grease & grim cleaner
- Heavy duty grease & grime cleaner
- Safe for all modern washable surfaces including walls, floors, tiled and laminated surfaces
- Concentrated, can be diluted with water or used neat
