

# Soft Care® Des E Spray

## H5

### Hand disinfectant liquid

#### Description

Soft Care® Des E Spray is an alcohol based hand disinfectant for waterless skin disinfection. Soft Care® Des E Spray is suitable for use in all areas, including food processing environments.

#### Features

Soft Care® Des E Spray is a hand sanitising alcohol rub that contains 71.5 grams ethanol for every 100 grams of product (or approx. 78%v/v ethanol). Ethanol is a disinfectant which is very effective against resident and transient skin microorganisms such as bacteria (e.g. MRSA) and yeast. It is also effective against enveloped viruses such as Influenza and certain non-enveloped viruses such as Norovirus and Adenovirus.

Soft Care® Des E Spray contains a skin softener helping the skin to remain smooth and intact, particularly in areas where frequent hand disinfection is required. Soft Care® Des E Spray is perfume-free thus eliminating the risk of tainting foods, and making it suitable for application in the food processing area.

Soft Care® Des E Spray has a low viscosity, making it suitable for application through a wide range of hygiene devices.

#### Benefits

- Contains ethanol, a highly effective disinfectant.
- Suitable for surgical disinfection.
- Fragrance and colour-free; suitable for use in the food processing industry.
- Contains an effective moisturiser preventing skin irritation and dehydration.
- Liquid format suitable for spray application.

#### Application areas

- Food Service
- Hospitality
- Lodging
- Education
- Food Processing
