suma®

Alu

L10

Aluminum-safe warewash detergent

Description

Suma® Alu L10 is a concentrated liquid ware washing detergent specially formulated to provide excellent soil removal in medium hard water conditions and to be safe on aluminium.

Features

Suma® Alu L10 is a pale yellow liquid detergent specially formulated for use in a wide range of single and multi-tank ware washing, pot washing machines and washer disinfectors. The product is intended primarily for use in soft to medium hard water conditions. It contains a blend of alkalis and powerful scale control agent for effective removal of soil. The formulation also contains corrosion inhibitors, which makes it suitable for use on the soft metallic surface such as aluminium and silver.

Benefits

- Safe for use on aluminium
- Cuts through grease and dried-on food
- Suitable for use in medium hard water conditions
- Being highly concentrated gives greater economy in use

Application areas

- Hospitality
- Lodging
- Healthcare
- Food Service
