

Sanitiser & Disinfectant

Highly efficient, broad-spectrum, quaternary, cationic germicide. Specifically developed for the disinfecting of spa baths. Designed to eliminate build-up in pipe work, filters and plumbing which can become quickly contaminated.

DIRECTIONS

Ensure bath surfaces are clean and fill to usual operating level. Add 40-60mls to a standard 500ltr spa bath and operate circulating system for 5-10 minutes. Drain and spray and wipe surfaces mixed at 1:4 (20% soln, 200mls per litre) with potable water.

GOOD PRACTICE

Under Good Practice Protocol diluted solution of this product as stated provides general biostasis using internationally recognised antibacterial agents with a recommended minimum contact time of 10 minutes. At 1% concentration this product provides 500PPM QUAC.
