

Rapid Green Gentle Pink Liquid Hand Soap

Safety Data Sheet

1. Identification of Substance & Company

Product

Product name	Rapid Green Gentle Pink Liquid Hand Soap
Product code	NA
HSNO approval	HSR002552
Approval description	Cosmetic Products Group Standard 2020
UN number	NA
Proper Shipping Name	NA
DG class	NA
Packaging group	NA
Hazchem code	NA
Uses	Liquid hand soap

Company Details

Company	Integra Industries Ltd
Address	21A Grosvenor St , South Dunedin
Telephone	0800 667 843
Website	www.integraindustries.co.nz

Emergency Telephone Number: 0800 764 766

2. Hazard Identification

GHS classification of the substrate/mixture

NOT hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) criteria.

GHS 7 Classes	Hazard Statements
---------------	-------------------

None	None.
------	-------

SYMBOLS

WARNING

Other Classifications

There are no other classifications that are known to apply

Precautionary Statements

Prevention None.

Response None.

Storage None.

Disposal P501 Dispose of product and packaging in accordance with local regulations. The information contained in this SDS is specific to the product when handled and used neat. This product when diluted/mixed may not require the same control measures as the neat product. Check with your technical representative if in doubt.

3. Composition / Information on Ingredients

According to GHS, the ingredients below are considered either hazardous or dangerous goods at levels used in this product:

Component	CAS/ Identification	Concentration
None	-	-

Rapid Green Gentle Pink Liquid Hand Soap

Safety Data Sheet

This is a commercial product whose exact ratio of components may vary slightly. Trace quantities of impurities are also likely.

4. First Aid

General Information

If medical advice is needed, have product container or label at hand. You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (0800 POISON) (24 hr emergency service).

Recommended first aid facilities Provide eye baths and safety showers close to areas where splashing may occur.

Exposure

Swallowed IF SWALLOWED: Rinse mouth thoroughly with water. Do NOT induce vomiting. If swallowed, call a poison control center or physician immediately.

Eye Contact IF IN EYES: Remove contact lenses. Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.

Skin Contact IF ON SKIN: Wash hands thoroughly after handling. If skin irritation or rash occurs, get medical advice/attention.

Inhaled IF INHALED, Remove from source of exposure to fresh air.

Advice to Doctor

Treat according to symptoms. Gastric lavage may be indicated if ingested. Any product aspirated during vomiting may produce lung injury.

5. Firefighting Measures

General measures: Clear fire area of all non-emergency personnel. Stay upwind. Eliminate ignition sources. Move fire exposed containers from fire area if it can be done without risk.

Flammability conditions: Product is not flammable.

Suitable Extinguishing Media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing substances: No information available.

Special Hazards arising from the chemical No information available.

Products of combustion: Packaging may emit toxic fumes when burnt.

Protective equipment: Firefighters should wear standard PPE suitable for the surrounding fire.

6. Accidental Release Measures

General response procedure: Stop leak if safe to do so. Shut off all sources of ignition. Avoid walking through spilled product (slippery).

Clean up procedure: Flush small spills with plenty of water. For large spills, soak up spilled product using absorbent non-combustible material such as sand or soil. When saturated collect material, transfer to suitable, labelled, dry chemical-waste containers and dispose of promptly as hazardous waste. Wash area down with excess water.

Containment: Stop leak if safe to do so. Contain spill immediately.

Decontamination: No information available.

Environmental Precautionary measures: Evacuate all unnecessary personnel.

Personal Precautionary measures: No specific PPE required for this product.

7. Storage and Handling

Storage No special instructions.

Handling Observe good personal hygiene practices and recommended procedures.

Rapid Green Gentle Pink Liquid Hand Soap

Safety Data Sheet

8. Exposure Controls / Personal Protective Equipment

Workplace Exposure Standards

WES - Ceiling (Workplace Exposure Standard - Ceiling). A concentration that should not be exceeded during any part of the working day.

NZ Workplace Exposure Standards	Ingredient	WES-TWA	WES-STEL
	No ingredients listed.		

Engineering Controls

None required for this product.

Personal Protective Equipment

General	Recommend safety glasses, gloves and safety shoes a minimum when handling bulk chemicals.
----------------	---

WES Additional Information

Not applicable

9. Physical & Chemical Properties

Form	Liquid
Appearance	Opaque
Colour	Pink
Odour	Rose
Odour Threshold	No data
pH	6.5
Freezing/Melting Point	No data
Boiling Point	No data
Flashpoint	Does not flash.
Upper & lower flammable limits	No LEL or UEL
Vapour pressure	No data
Vapour density	No data
Specific gravity/density	No data
Solubility	miscible with water
Partition coefficient	No data
Auto-ignition temperature	No data
Decomposition temperature	No data
Viscosity	No data
Shelf Life	2 years from date of manufacture (when stored as directed).

10. Stability & Reactivity

Stability	Stable under normal conditions of use.
Conditions to be avoided	None.
Incompatible groups	None.
Hazardous decomposition products	The packaging material may burn to emit noxious fumes.
Hazardous Polymerization	Hazardous polymerisation will not occur.

11. Toxicological Information

Summary

No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:

Supporting Data

Acute	Ingestion	May cause temporary nausea and discomfort.
	Inhaled	No risk.

Rapid Green Gentle Pink Liquid Hand Soap

Safety Data Sheet

Chronic	Eye	May cause temporary discomfort. Rinse with clean water.
	Skin	No risk.
	Sensitisation	No information available.
	Mutagenicity	No information available.
	Carcinogenicity	No information available.
	Reproductive / Developmental	No information available.
	Systemic	No information available.
	Aggravation of existing condition	No information available.
	STOT – Single Exposure	No information available.
	STOT – Repeated Exposure	No information available.
Aspiration Hazard	No information available.	

12. Ecological Data

Summary

This mixture is not considered ecotoxic however in all cases prevent run-off to drains, sewers and waterways.

Supporting Data

Bioaccumulation	No information available.
Mobility	High water solubility and mobility.
Persistence and Degradability	Readily Biodegradable.
Soil	No evidence of soil toxicity.
Terrestrial vertebrate	No information available.
Terrestrial invertebrate	No information available.
Biocidal	No information available.
Environmental Protection	This product is not harmful to the environment.

13. Disposal Considerations

General Information	Product is extremely diluted and poses no risk if used as directed.
Special precautions for landfill	None

14. Transport Information

NOT classified as Dangerous Goods by the by the NZ Transport Agency - Land Transport Rule (2005).

Legend

AICS	Australian Inventory of Chemical Substances
APVMA	Australian Pesticides and Veterinary Medicines Authority
AQIS	Australian Quarantine and Inspection Service
AS	Australian Standard (as issued by Standards Australia)
CAS	Chemical Abstracts Service.
GHS	Globally Harmonised System
HSNO	Hazardous Substances and New Organisms (New Zealand)
PPE	Personal Protective Equipment
SDS	Safety Data Sheet
STEL	Short Term Exposure Limit. A 15-min TWA exposure, not exceeded at any time during a working day, even if the 8-hour TWA average is within the TWA exposure standard. Exposures at the STEL should not exceed 15-min and should not be repeated more than 4 times per day. There should be at least 60-min between successive exposures at the STEL.
TLV	Threshold Limit Value. TLV is a proprietary name registered by the American Conference of Governmental Industrial Hygienists (ACGIH) and refers to airborne concentrations of substances or levels of physical agents to which it is believed that nearly all workers may be repeatedly exposed day after day without adverse effect.
TWA	Time Weighted Average. The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day working week.
NZTA	New Zealand Transport Agency.

Disclaimer

This SDS was prepared by INTEGRA INDUSTRIES LTD and is based on our current state of knowledge, including information obtained from suppliers. The SDS is given in good faith and constitutes a guideline (not a guarantee of safety). The level of risk each substance poses is relevant to its properties (as summarised in the SDS) AND HOW THE SUBSTANCE IS USED. While guidelines are given for personal protective equipment, such precautions must be relevant to the use. The likely GHS 7 classifications for this SDS have been estimated based on general information from the supplier (e.g., hazard, toxicological). This SDS is copyright INTEGRA INDUSTRIES LTD and must not be copied, edited or used for other than intended purpose. To contact the SDS author, email sales@integraindustries.co.nz or phone: +64 3 455 6805.
