

## MW10CW & MW20CW – Chip Warmers

Supplied with a sloping tray for chips, the MW10CW and MW20CW are designed to enhance productivity and presentation of cooked chips. Heating from above and below, the unit maintains cooked chips at the correct serving temperature and allows the fryer basket to be immediately returned to the fryer for the next batch, increasing fryer productivity.

At the same time, the heat lamp serves to throw heat and a yellow light onto the cooked chips to enhance presentation.

MW10CW - Chip Warmer

MW20CW - Chip Warmer
