Covers up to 1300 sqm

10KG

REMOVES SOILING & MOULD

HELPS PRESERVE TIMBER

NO ACIDS OR CHLORINE

LOW TOXICITY FOR PLANTS & ANIMALS

1 DILUTED LITRE COVERS 4M²

COST EFFECTIVE

Multi-Purpose Cleaning Powder

Concentrated powder that cleans and rejuvenates exterior surfaces. Suitable for wooden decks, and other semi-porous surfaces such as concrete drive ways and surfaces with organic soiling. Non-caustic, non-chlorinated and non-acidic formula. Safely removes stains and soiling.

APPLICATION

EXTERIORS: Wooden decks, pavements, concrete driveways, patios, outdoor tiling, grout cleaning, concrete floors, janitorial surfaces

DIRECTIONS

CONCRETE & TILED SURFACES: Dissolve 5 scoops into a plastic bucket with 5 litres of hot water. Allow the solution to sit for approx 3-5 mins then evenly pour directly over surfaces. Leave for 2 mins to activate then scrub with a brush or stiff broom, adding more solution to surfaces as required. Rinse well and allow to dry.

WOODEN DECKS & SURFACES: Use the same process as above, however a more even coverage may be achieved with the use of a plastic watering can, while also reducing product wastage through gaps in decking timber. AGENT-OXY may be used with spray equipment, as long as product is completely dissolved. Always rinse or wash areas with fresh water to finish. While AGENT-OXY should not cause any damage to plants, foliage or animal life, always immediately rinse the product off with fresh cold water. AGENT-OXY is designed for 'best use' with hot water, above 50-60°C and it will foam up on application.

Application & Intensity Guide

Medium/Heavy ●●

Concrete & tiled surfaces

Pavements, driveways, patios, outdoor tiling, concrete floors

Cleans and rejuvenates concrete & tiled surfaces. Safely removes stains and soiling.

5 Scoops with 5L Water

Heavy ●●●

Wooden decks & surfaces

Use in commercial & industrial environments

Cleans and rejuvenates wooden decks and surfaces, safely removing stains & soiling. **TIP:** Use watering can for even coverage.

5 Scoops with 5L Water

pH Level

pH 10.5 (@1% Solution)

Surface Suitable

Wooden Decks

Concrete Floors

Driveways & Pavements

Outdoor Tiling & Grout

Patios

Janitorial Surfaces

Properties

White Powder

Removes Soiling & Mould

Preserves Timber

Chlorine & Acid Free

WARNING

Group Standard: HSR002530 - Cleaning Products (Subsidiary Hazard) Group Standard 2020
Causes skin irritation.
Causes serious eye irritation.
Harmful to terrestrial vertebrates.
