**NEW!  
HIGH TACK  
BUTYL  
FORMULATION**

Byute Flash® weather proofing tape is aluminium foil coated with thick butyl rubber adhesive used for weather proofing joints and seams. Uses include repairs to roofing, guttering, downpipe or water tank tops, sealing joints around skylights, doors or adjoining building surfaces and weather sealing seams in caravans, trucks, toolsheds etc. Byute Flash® weather proofing tape is one of the most versatile repair tapes available.

Instructions for use:

1. Thoroughly clean and dry surfaces prior to applying Byute Flash® weather proofing tape.
2. Byute Flash® weather proofing tape may be cut with a knife or scissors.
3. Apply Byute Flash® weather proofing tape firmly to substrate, smooth down and mould in place.
4. Overlap adjoining strips by a minimum of 25mm.

**Always wear personal  
safety protection**

 **Consolidated Alloys**
