

# Charlie Carp – All Purpose Fertiliser

Page 1 of 4

## SAFETY DATA SHEET

### Section 1 - Identification of the Preparation and the Company

Product Name: **Charlie Carp – All Purpose Fertiliser**

Other Names: None

**This product is not classified as hazardous according to the criteria of Safe Work Australia.**

Not classified as a Dangerous Good according to the Australian Dangerous Goods Code (ADG).

Uses: Fertiliser.

#### Charlie Carp Ltd

Address

Lot 2, Saleyards Road  
Postal: PO Box 48 DENILQUIN NSW 2710

Telephone  
Emergency

(03) 5881 8882  
1300 305 963  
info@charliecarp.com

e-mail  
Website

<https://www.charliecarp.com.au/>

Poisons Information Centre

Poisons Information Centre. Phone (e.g. Australia 13 11 26; New Zealand 0800 764 766).

### Section 2 – Hazards Identification

Not Hazardous

#### Hazard Statements

**NONE, NOT HAZARDOUS**

#### Prevention

P264: Wash hands thoroughly after handling

#### Response

P301 + P310: IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician.

P302 + P352 IF ON SKIN: Wash with plenty of soap and water

P305 + P313 + P351 + P337 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention

P332 + P313: If skin irritation occurs: Get medical advice/attention

P308 + P313 If exposed or concerned: Get medical advice/attention

#### Storage

P403 + P235 Store in a well-ventilated place. Keep cool

#### Disposal

P501 Dispose of contents/container to approved landfill.

### Section 3 - Composition/Information on Ingredients

#### Ingredient(s)

Hydrolysed whole fish and nutrients.

Contains non-hazardous ingredients or ingredients that are below hazardous concentrations

#### CAS-number

Not available

#### %wt

### Section 4 – First Aid Measures

#### Ingestion:

NEVER GIVE AN UNCONSCIOUS PERSON ANYTHING TO DRINK NOR ATTEMPT TO INDUCE VOMITING. If person is conscious, rinse mouth out with water ensuring that mouthwash is not swallowed. Give about 250mL (2 glasses) of water to drink. For advice, contact a Poisons Information Centre. (Phone e.g. Australia 131126; New Zealand 0800 764 766) or a doctor.

#### Inhalation:

First aid is unlikely to be required as a result of exposures during normal use. The product is diluted for use. However, if necessary, remove to fresh air and wash the area around the nose and mouth with water.

# Charlie Carp – All Purpose Fertiliser

**Eye Contact:**

Hold eyelids open and rinse the eye continuously with a gentle stream of clean running water for at least fifteen minutes. Seek medical attention if any irritation persists.

**Skin Contact:**

Remove contaminated clothing and wash thoroughly with soap and water. Use water alone, if soap is unavailable. Apply a moisturising hand cream, if available. Seek medical attention if any soreness or inflammation of the skin persists or develops later. Launder affected clothing before re-use.

**Additional Information:**

**First Aid Facilities:** Eye wash facilities are recommended if large quantities of the concentrated product are being handled

**Advice to Doctor:** Treat symptomatically.

**Entry Route(s):** Inhalation of spray mists or ingestion.

## Section 5 – Fire Fighting Measures

**SUITABLE EXTINGUISHING MEDIA:** Extinguish using whatever is suitable for the primary cause of the fire. Foam, dry chemical powder (bicarbonate or ammonium phosphate based) or carbon dioxide are all suitable.

**HAZARDS FROM COMBUSTION PRODUCTS:** May evolve carbon monoxide, carbon dioxide and traces of completely burned carbon products if heated strongly enough to evaporate the water component.

**PROTECTIVE EQUIPMENT:** Fire fighters should wear self-contained breathing apparatus.

**Additional Information:**

Product is not combustible.

## Section 6 – Accidental Release Measures

**EMERGENCY PROCEDURES:** Wear protective equipment as specified for handling

**SPILLS:** For minor spills, dilute with water. In the event of a major spill, prevent from entering drains and water courses until fully diluted or cover with an absorbent such as earth, sand or a commercial oil absorber. Sweep or scrape up and collect in sealable containers. Dispose to approved landfill.

## Section 7 – Handling and Storage

**SAFE HANDLING PRECAUTIONS:** Avoid prolonged or repeated skin contact. Wear gloves to minimise skin contact: For Personal Protective Equipment (PPE), see Section 8.

**SAFE STORAGE PRECAUTIONS:** Keep away from direct sources of heat. No other special storage precautions required but product life will be maximised if it is stored out of direct sunlight in a cool well ventilated area.

**INCOMPATIBILITIES:** None.

## Section 8 – Exposure Controls/Personal Protection

**EXPOSURE STANDARDS:** Exposure standards have not been allocated to this product or its ingredients.

Exposure standards represent airborne concentrations of individual chemical substances, which according to current knowledge, should neither impair the health nor cause undue discomfort to nearly all workers. Exposure standard may be a time-weighted average (TWA), a short-term exposure limit (STEL) or a peak level.

**ENGINEERING CONTROLS:**

Ventilation requirements depend on the quantity of product in use and the method of application. If using more than minor quantities, work area should have good, mechanical ventilation. Local exhaust ventilation is unlikely to be required for foreseeable uses of this product.

**PERSONAL PROTECTION:**

Requirements are dependent on working conditions, method of application and quantity of product in use. For minor use, nitrile, neoprene, PVC or natural rubber gloves may be sufficient. Safety glasses should be worn if there is any potential for eye contact. Respiratory protection is unlikely to be required for foreseeable uses of this product alone

**WITHHOLDING PERIODS:**

A 2-3 day withholding period is advised for Fruit and Vegetables and Animals on Pastures and associated Crops.

# Charlie Carp – All Purpose Fertiliser

## Section 9 – Physical and Chemical Properties

Appearance: Mid-brown liquid with fine solids and light fish hydrolysate odour  
Boiling Point: 100°C  
Melting Point: 0°C  
Vapour Pressure: Negligible  
Vapour Density: No data available  
Specific Gravity: 1.20.  
Solubility (Water): Totally miscible  
Flash Point: None  
Explosion Limits: None  
% Volatiles: <1%  
Ph: Not relevant

## Section 10 – Stability and Reactivity

**Stability:** Stable

**Hazardous Decomposition Products:** May evolve carbon dioxide and traces of incompletely burned carbon products if heated strongly enough to evaporate the liquid content and burn the residual solids.

**Hazardous polymerisation:** Will not occur.

**Incompatibilities:** None known.

**Conditions to Avoid:** As an organic product, shelf life will be prolonged if stored in a cool area.

## Section 11 – Toxicological Information

### Symptoms of Exposure:

**ACUTE - Swallowed** Considered to be practically non harmful by all exposure routes, however, flavour is unpleasant in concentrated form.

**ACUTE – EYE:** Concentrate may be Irritating.

**ACUTE – SKIN:** Harmless unless in contact with broken skin, when irritation might occur.

**ACUTE – INHALED:** Inhalation is unlikely to be a hazard in normal use but if generated spray mist might be slightly irritating.

### Chronic Health Effects

**Chronic:** No specific data is available for the product for chronic exposure symptoms.

**Carcinogenicity:** None of the ingredients in this product are listed as carcinogenic by Safe Work Australia, the International Agency for Research on Cancer (IARC), the National Institute for Occupational Safety and Health (NIOSH), the National Toxicology Program (NTP), or the Occupational Health and Safety Administration (OSHA).

### Toxicological Information

Acute Toxicity Data:

No data available.

## Section 12 – Ecological Information

As the product is a fertiliser, it is not expected to be harmful in soil. However, the concentrated product should not be allowed to enter drains or waterways as it may cause an excess of nutrients

## Section 13 – Disposal Considerations

Concentrate should be disposed to approved land fill. Rinsed containers may be disposed in general waste.

# Charlie Carp – All Purpose Fertiliser

## Section 14 – Transport Information

This product is not a dangerous good according to the Australian Code for the Transportation of Dangerous Goods by Road and Rail (ADG Code).

UN Number: None allocated  
Proper shipping name: None allocated  
DG Class: None allocated  
HazChem code: None allocated  
Packing group: None allocated

## Section 15 – Regulatory Information

Product is not a scheduled poison according to the requirements of the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

All ingredients are listed on the Australian Inventory of Chemical Substances (AICS).

## Section 16 – Other Information
